

Rose

Paso Robles

2020

TASTING NOTES

Enticing aromas of wild strawberries and lavender predominate with some subtle hints of honeysuckle in the background. This wine has a wonderfully rich, supple mid-palate followed by a clean, crisp finish.

CELLARING

No need for extended aging. This delightful wine is designed to be consumed while young and fresh. While traditionally chosen for warm spring and summer days, this wine will enliven all classic fall and winter holiday family gatherings.

FOOD SELECTION

As you might have surmised from the reference above, we feel this is the perfect wine for all pink entrees (crab, shrimp, & salmon) plus various appetizers. It is wonderful at picnics as well as sitdown lunches. It also pairs well with soup or appetizer courses for multicourse dinner events.
