WINEMAKING AND AGING

Hand harvested, crushed and inoculated 24 hours later with d254 yeast. The must was pumped over twice daily prior to pressing 11 days later. After completion of malolactic fermentation, this zinfandel was aged in Hungarian & American oak barrels for 24 months prior to bottling.

While delightful now, this concentrated zinfandel will continue to develop in the bottle with proper cellaring for another 3-5 years with a plateau of best drinkability from 2028-2030.
